

# PRODUCT SPECIFICATION SHEET

## MODEL: PP Paint Pocket Overspray Arrestor

### DESCRIPTION

The Filter Systems model PP is a single stage overspray arrestor that excels in capturing both liquid and powder coating generated in industrial, automotive, and aerospace applications. The three dimensional "pockets" embedded in the front face more than double its surface area. Available in both pads and rolls.

### FEATURES

- ✓ Suitable for a variety of overspray applications.
- ✓ 99.84% efficient at capturing 10 micron particles.
- ✓ Initial pressure drop of .06" @ 150 FPM.
- ✓ All components rated UL 900 for flammability.
- ✓ Synthetic media.
- ✓ Thermally stable to 212 degrees F.
- ✓ Typically land-fillable (contains no known hazardous materials).
- ✓ Standard sizes are available in pads or rolls.

### TEST DATA

\*\*\*Actual test report available upon request.

### SELECTION CHART

PART #	SIZE	DESCRIPTION
PP-2020	20"x20"	Paint Pocket Pads
PP-2025	20"x20"	Paint Pocket Pads
PP-024-050-01	24"x50'	Paint Pocket Roll
