

PRODUCT SPECIFICATION SHEET

MODEL: RPH Hi-Efficiency RPH Paint Arrestors

DESCRIPTION

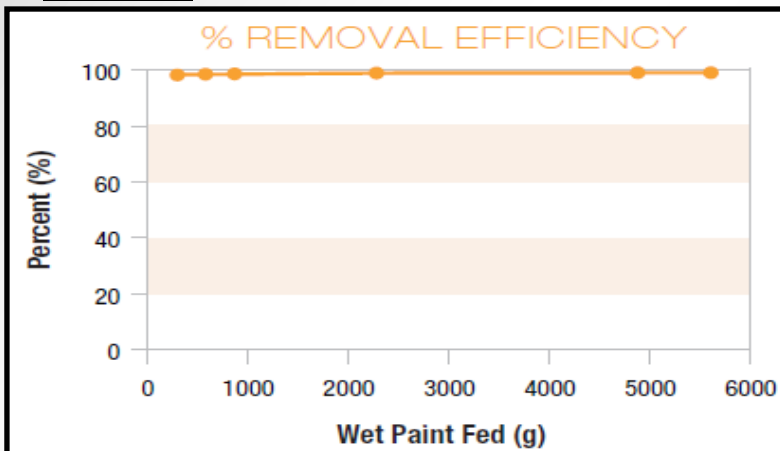

The Filter Systems model RPH is similar to the RP series, but has an added polyester backing which increases the overall efficiency needed for very finely atomized overspray particles resulting in a 50% reduction of overspray up the stack. Available in pad or roll form.

FEATURES

- ✓ Suitable for a variety of crossdraft applications.
- ✓ 99.73% efficient at capturing 10 micron particles.
- ✓ Initial pressure drop of .03" @ 150 FPM.
- ✓ All components rated UL 900 for flammability.
- ✓ Paper and poly media.
- ✓ Thermally stable to 212 degrees F.
- ✓ Typically land-fillable (contains no known hazardous materials).
- ✓ Standard sizes in both pad and roll forms.

TEST DATA

***Actual test report available upon request.
